WHAT WE DO

TOPOGRAPHICAL SURVEY

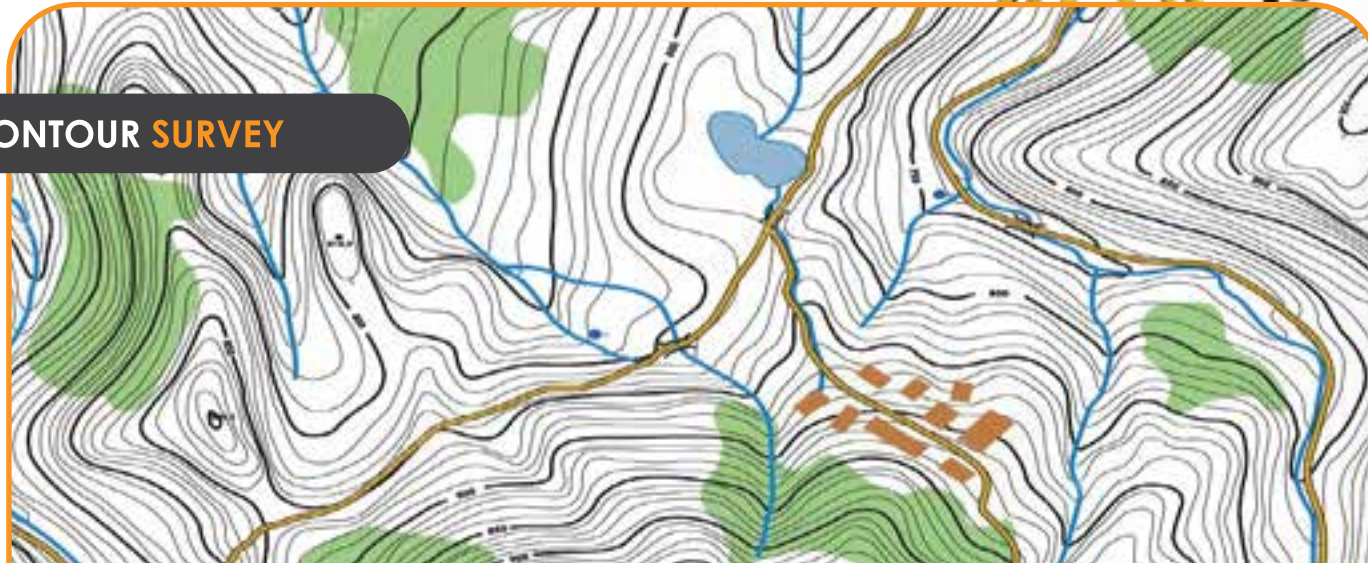

We are specialized in route alignment & cadastral surveys for supporting the land acquisition & construction process for pipelines, Roads, Railways & canals etc. Contour & topographic surveys for various types of development & landscaping, Earth quantity surveys, Liasoning works with NHAI, Forest department, PWD & Railways for obtaining NOC/permissions for development, Dy. SLR survey for fixing boundaries by DGPS or Total Station.

DGPS SURVEY

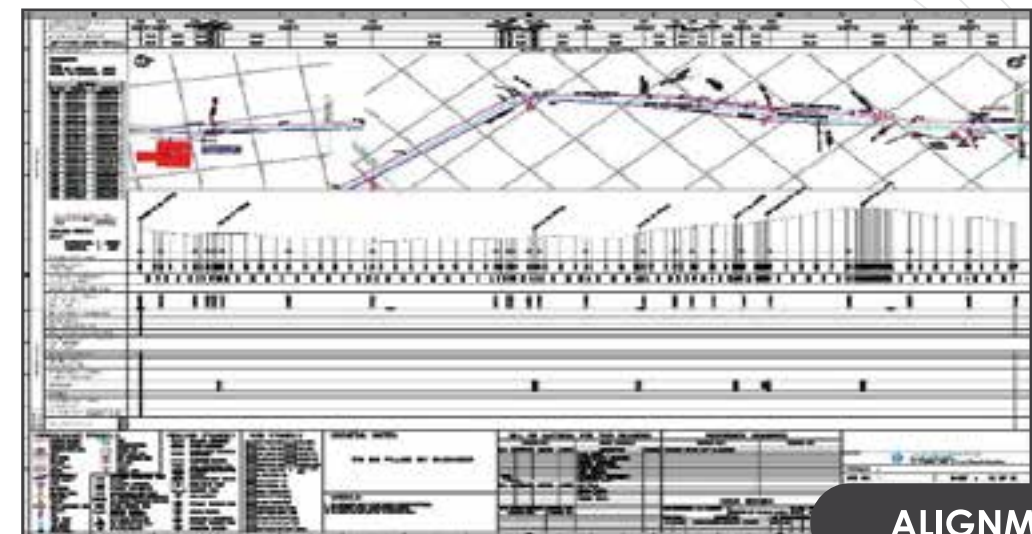

A differential Global Positioning System (DGPS) is an enhancement to the Global Positioning System (GPS) which provides improved location accuracy, in the range of operations of each system. DGPS used in survey work to ensure to save time, cost, labour saving, location - large area size work & to avoid complicated calculations in survey systems.
